O R D E R:

In the reference read above, the Chief Engineer, Minor Irrigation has stated that the Kumili Groyene was constructed long back on the Champavathi River near Nellimarla Railway Station, Nellimarla. The length of the channel is around 9.10 km. It feeds the Pedda tank of Kumili village of Pusapati Rega Mandal, but part of the Channel at starting point traverses along the left flank of River Champavathi up to Km 3.00 of Channel system. The Channel having contemplated ayacut of 3650 acres in Denkada and Pusapatirega Mandals. Due to heavy discharge through the channel; the Kondapeta CC road which is on R/s of the channel was scored and damaged. This road is more essential for the villages to reach Mandal head quarters. Hence the villages of Kodapeta have represented their grievance and based on the representation the site was inspected and found that it is necessary to construct protection wall on R/s of the channel to protect the Path way.
